Who We Are and What We Represent.

ArchMC is a Minecraft server that's proudly owned by "**RuleYourOwnGame**". As the largest Eaglercraft Server, we carry the responsibility of setting the industry standard for community management.

Our goal is to provide a highly accessible gameplay experience for everyone globally. The ArchMC Staff Team is dedicated to maintaining a safe, inclusive environment. By joining our Minecraft server, Discord or any associated platforms **you agree to follow our guidelines** outlined in this document.

Player Privacy and Fairness

The integrity of our playerbase is of highest-priority. To ensure a fair playing field, we expect you to understand the following contents:

Data Privacy

We respect your privacy in ArchMC Network. ArchMC does not share the information of its playerbase to third parties. We won't disclose the alts or punishment details of a player that isn't you.

Accountability is Personal

Support tickets are personal. We do not allow appeals to be done by third-parties. Only the original account owner can submit a support ticket for review.

Anti-Corruption Policy

ArchMC has a zero-tolerance policy against bribery or favour induced Staff decisions. We do not, and will never accept any form of incentive to alter punishment decisions. Furthermore, no player - regardless of rank, race, status etc. - receives "favoured" treatment. These guidelines apply equally and objectively to all.

General Philosophy of the Rules

While the following sections go into detail of prohibited punishable behaviors, the general expectation is simple.

“Conduct yourselves with *maturity*”

Act in a Way That is Socially Acceptable

We expect our players to be socially acceptable human beings.

Have Common Sense

We expect our players to have common sense regarding human interactions.

Show Basic Respect

We expect our players to show basic respect to other members of society, regardless of their favour against said member.

Keep in mind that your freedom ends when someone else's freedom starts. These rulesets aren't to restrict the player, but to ensure a safe community.

By joining our Minecraft server, Discord or any associated platforms you agree to follow our guidelines outlined in this document.

Chat Rules

Table of Contents

- Chat Etiquette
 - User Safety
 - Platform Security
-

Chat Etiquette

1. Spamming and Flooding

Keep the chat **clean**. Sending the same message multiple times, using way too many caps needed to make your point go across, or making a message too long to make the other messages in the thread less visible is not allowed.

Encouraging other users in order to disrupt the chat in this way is also a violation of these terms.

2. Unapproved Discussions

Avoid discussing Politics, Religion, or ongoing conversational events that shouldn't be discussed in a family friendly voxel-based game. **Don't redirect anyone to other platforms** that follow anything mentioned above using the public chat.

3. Advertising

Refrain from advertising other platforms. This includes Minecraft Servers, Social Media Groups, Discord Communities etc. **ArchMC is only dedicated to its community**, nothing else.

User Safety

1. Harassment

Show Basic Respect. Personally targeting a specific user, using their identity as a person to degrade someone's existence and any type of threats on a user's well-being is **not** tolerated.

If a discussion gets too heavy to keep it in public chat, resolve it privately or just block the other person.

2. Hate Speech

Discriminatory language of any kind is strictly prohibited. This includes slurs, racism and homophobia. “**Context**” or “**Joke**” is **not accepted as an excuse**. The use of hate speech is prohibited regardless of intent.

3. Threats

Protection of our users is top priority. Any type of threats against an user or the environment of the user is **not tolerated**. The types mentioned include: Doxxing Threats, Death Threats, Swatting Threats, DDoS Threats, Sexual Threats etc.

4. Disallowed Media

You are not allowed to share any kind of **NSFW content** in ArchMC. This includes both sexual media and media that contains any type of gore. Keep in mind that **your actions might seriously harm someone**. These infractions are unappealable.

Platform Security

1. Deception

While tricking players in ways that follow the gameplay loop is permitted, you are **not** allowed to **impersonate any staff members**. Technical deception using crash debug commands is also not allowed.

2. Evasions

If you are muted, you are muted. While you can still communicate using in-game items like signs, you are not allowed to go in an alternative account to bypass the mute. Any type of mute evasion infractions will result in **harsher punishments** in your original account.

3. Bypassing Filters

This one should be obvious. **Do not** in any case try to use disallowed words by **finding exploits** within the system. These types of infractions are more likely to give harsher punishments than normal timeouts.

Gameplay Rules

Table of Contents

- Gameplay Etiquette
 - Exploits
 - Unfair Advantages
-

Gameplay Etiquette

1. Cross-Teaming

In any gamemode which automatically sets team roles after joining a game, you are **only** allowed to team with your **assigned team members**. Any act of cross-teaming is a punishable offense.

2. Team Griefing

Any act of **self-sabotage** in a **team game** is considered griefing. Any act of playing with the **objective to lose** in a team gamemode is a punishable offense.

3. Trading Ethics

Every single transaction that happens between a player and another player should be done **using the in-game interface**. This includes Rank to In-game item transactions. Forwarding a trade to a third party application is a punishable offense. Rank scamming is considered a gameplay loop event.

Exploits

1. Dupe Exploits

Any type of “Dupe” that is **classified as a bug** is disallowed. This includes Coin dupes, block dupes, item dupes etc. You can also be punished for purchasing or **having obviously duped items** that haven't been reported. If you see someone being beaten up and you also join in, even though you didn't throw the first punch, **you are a part of the problem**.

2. Gameplay Exploits

Any act of **using a system** to gain an **obviously unintended advantage** is not allowed. This includes griefing areas like Lifesteal's spawn, Abusing invincibility exploits, Glitching through map borders, Making false /reports, Spamming the /helpop command, Use of lag machines, Cooldown bypasses etc.

Unfair Advantages

1. Use of Hacked Clients

The use of any **external software** that **modifies your Minecraft Instance** is disallowed. Make sure all such programs are completely closed before joining the server. Accidentally joining with a Hacked Client **is not an excuse**.

2. Disallowed Modifications

Let's start from ground zero. What do we consider as "**modifications**"?

1. Mods

Any Fabric, Forge, Neoforge Mod is considered a modification.

2. Resource Packs

Zero Tolerance Section

Table of Contents

- Extreme Safety Violations
 - Privacy & Security
 - Prohibited Interactions
-

Extreme Safety Violations

1. Content Involving Minors

Any type of **endangerment of minors** will result in an immediate, permanent blacklist out of the network.

2. Violence Threats

Extreme threats involving **real world violence** will result in an immediate, permanent blacklist out of the network. Do **not** even joke about topics such as swatting or school shootings.

3. Explicit & Harmful Content

Any type of **sexual** or **gore** content will result in an immediate, permanent blacklist out of the network.

Privacy & Security

1. Doxxing Acts

Sharing **any type of real life identifiers** of a user who has not given you **specific consent** (IP, Address, Full name, Picture of house etc.) will result in an immediate, permanent blacklist out of the network.

2. Account Theft

Any attempt to **steal credentials** of another user will result in an immediate, permanent blacklist out of the network.

3. Data Exfiltration

Data exfiltration of personal **user info** or any **server info** is bannable. You are not allowed to use the **Public API** in order to gain any information that's not accessible for players inside the network.

Prohibited Interactions

1. E-Dating

Our priority is keeping ArchMC a safe space for everyone, especially our younger players. That's why we have a zero tolerance policy against e-dating. We ask that you **keep your personal relationships off the server**. Using our chat or platforms for romantic interest will result in an immediate blacklist out of the network.

2. Self-Harm Encouragement

Content that **promotes** and **glorifies** self-harm or **suicide** is **prohibited**. ArchMC takes the mental health of our players seriously. Any serious self-harm Encouragement will be met with immediate blacklist out of the network.

3. Pinging Staff Members.

Do not mention staff for updates on appeals, reports, or applications. Messaging multiple staff members through DM's, pinging them one by one or tagging roles to mention multiple staff members at once is a really fast way to getting timed out or ticket banned. Allow the staff team to handle your request **in the order it was received**.

Appeals

If you were punished and believe it was a **mistake**, you can create a **Punishment Appeal** ticket through the [ArchMC Support Discord Server](#).
