

Thoria

Minecraft Server Administrator & Media Manager

EU · Turkey (UTC+3) | officialthoria@gmail.com | Discord @inrising | github.com/thoriadevelopment | youtube.com/@inrisings

PROFILE

Minecraft server administrator and media manager with **three years** running networks that hold **400+ to 1,000+ average concurrent players**. I lead staff teams of up to 22, manage **30+ content creators** across multiple servers, and build the internal tooling that keeps moderation, payouts, and creator programs systematic instead of chaotic. I authored ArchMC's official Community Guidelines, wrote the JavaScript algorithm that allocates creator payouts, and built **Kleos**, a multi-server creator-tracking dashboard. Known as a genuinely reachable management member — the person staff and creators actually hear back from.

KEY METRICS

3+ yrs SERVER ADMIN	1k+ avg CONCURRENT PLAYERS	30+ CREATORS MANAGED	42k+ DISCORD MODERATED
600+ SUPPORT TICKETS	2.7k+ PUNISHMENTS ISSUED	100+ BUGS DOCUMENTED	~70 SCREENSHARES

EXPERIENCE

- Administrator & Media Manager — ArchMC Network

2024 – 2026 ~1k avg players

 - Moderated a **42,000+ member** Discord community and led a staff team of **22**, plus 8 commissioned builders and 2 partnered paid creators.
 - Built a **JavaScript algorithm** that systematically allocates payouts to media creators, replacing ad-hoc spreadsheet tracking with a reproducible payout workflow.
 - Developed **Kleos**, a media-management dashboard tracking 30+ creators across multiple servers from a single view (activity, budget allocation, payouts).
 - Documented **100+ bugs** including critical vulnerabilities; served as an allocated screensharer for **~70 manual screenshares** using Echo & Ocean.
 - Handled **600+ support tickets** and issued ~2,500 punishments through a transparent moderation and appeals workflow.
 - Authored ArchMC's current official **Community Guidelines** and the staff onboarding process.
- Builder & Administrator — VoidSentMC Network

2025 – 2026 ~250 avg players

 - Moderated a **3,500+ member** Discord community and led a staff team of **19**, including 3 voluntary builders.
 - Finalized **5 build projects** from concept to completion while overseeing day-to-day server operations.
 - Documented **15+ bugs** including critical issues and maintained cheat-free gameplay through anticheat triage.
 - Handled **50+ support tickets** and issued ~200 punishments, keeping moderation consistent at smaller scale.

FEATURED PROJECT

Kleos [PYTHON](#) · [JAVASCRIPT](#) · [DASHBOARD](#)

A media-management tool that tracks multiple content creators across multiple Minecraft servers from one dashboard — activity, budget allocation, and payouts in a single view. Built to replace the spreadsheet chaos of running 30+ creators at once; now drives systematic creator compensation across networks.

SKILLS

Anticheat & Security

Hands-on with Polar, Vulcan & Grim (read Grim's source code). Studied open-source cheat clients (Doomsday, Raven B+) to understand bypass methods. ~70 manual screenshares (Echo & Ocean); punishment & appeals workflow at scale.

- Polar
- Vulcan
- Grim
- Doomsday
- Raven B+

Creator & Media Management

Running creator programs at scale: activity tracking, budget allocation, and systematic payouts across multiple servers. JavaScript payout algorithm; 30+ creators managed to date.

- Creator programs
- Budget allocation
- Payout systems
- Multi-server ops

Staff Leadership

Teams of up to 22: hiring, interviews, onboarding, and direct escalation handling. Authored official Community Guidelines and onboarding process; reachable-management culture.

- Hiring & onboarding
- Team leadership
- Escalations
- Policy writing

Development & Tooling

Internal tools for server operations and creator tracking. Author of Kleos.

- Python
- JavaScript
- Kleos

LANGUAGES

Turkish — native **English** — fluent (7 years)
